HARSH

.NET Developer | ASP.NET Core Backend

Gheelot, Rajasthan | +91 7217778192 | harsh2155yadav@gmail.com

Professional Summary

.NET Developer Intern experienced in building and optimizing HRMS features using C#, ASP.NET Core Web API, Entity Framework Core, and SQL Server. Skilled in REST API development, backend workflows, database migrations, and performance optimization.

Technical Skills

Languages: C#, Java, JavaScript, TypeScript
Frameworks: ASP.NET Core, Entity Framework Core, React, Spring Boot, Spring Security, Spring Data JPA
APIs & Authentication: REST APIs, JWT, Two-Factor Authentication (2FA)
Databases: SQL Server, PostgreSQL, MySQL
Tools: Git, GitHub, Postman, Linux, VS Code

Experience

Plansquare Procon Pvt. Ltd. Dec 2025 – Present
.NET Developer Intern (ASP.NET Core) Remote

- Developed and maintained HRMS features for project hierarchy, tasks, subtasks, bugs, attendance, and time logging using C#, ASP.NET Core Web API, EF Core, and SQL Server.
- Reduced initial HRMS page load from **5 s to 400 ms** (**92% reduction**) for views with approximately **1,000 records** by initially fetching only visible rows, loading more on demand, and progressively prefetching remaining data in the background; used skeleton screens for smoother perceived loading.
- Improved Workforce Insights data loading by reusing the project hierarchy summary API and avoiding repeated organization-wide data retrieval.
- Implemented project-wise cost estimation using employee-specific hourly rates and time logged on tasks, subtasks, and bugs; maintained EF Core migrations for related database changes.

Xtelify Ltd. Aug 2025 – Oct 2025
Software Developer Intern Gurgaon

- Contributed backend enhancements, bug fixes, and workflow improvements to the Broadband Order Manager system.
- Collaborated with senior developers to investigate issues, implement fixes, and support reliable application delivery.

Projects

Cab Broking App GitHub
Java, Spring Boot, PostgreSQL, Spring Security, Spring Data JPA, JWT

- Built REST APIs for cab bookings and route-based features; secured endpoints with Spring Security and JWT.
- Implemented persistence using Spring Data JPA and PostgreSQL.

Stock Trading Platform GitHub
Java, Spring Boot, MySQL, JWT, Two-Factor Authentication

- Developed a trading backend with account management and role-based access for ADMIN and USER accounts.
- Implemented JWT and OTP-based 2FA with dedicated controller, service, repository, and model layers.

Education

Punjab Technical University Sep 2022 – May 2026
Bachelor of Technology in Computer Science Engineering Jalandhar, Punjab
